

CLASIFICATION OF NON-DANGEROUS SUBSTANCES

The legislative regulations of the Czech Republic (code of laws 356/2003, 232/2004 - classification, packing, labeling and use of reagents and chemical substances) (Council Directive 67/548/EEC) state that the below enlisted items are not classified as

dangerous and their safety data sheets are not required.

Adeps suillus stabilisatus	di-Sodium tartrate dihydrate
Alizarin Yellow GG, sodium salt	D-Maltose monohydrate
Aluminium hydroxide	D-Mannitol
Aluminium oxide	Ethylenediaminetetraacetic acid magnesium disodium salt hydrate
Aluminum sulfate hexadecahydrate, hydrate	Ethyl acetoacetate
Aluminum sulfate octadecahydrate	Ferric oxide
Ammonium aluminum sulfate dodecahydrate	Ferroun solution (0,025 mol/l)
Ammonium dihydrogen citrate anhydrous	Fluorescein (free acid)
Ammonium dihydrogen phosphate	Fluorescein sodium
Ammonium hydrogen tartrate	Gelatine
Ammonium iodide	Glycerol 85%, anhydrous
Ammonium iron(III) citrate brown	Glycine
Ammonium iron(III) citrate green	Hippuric acid
Ammonium sulfamate	Chromium(III) oxide
Ammonium sulfate	Iron(III) citrate monohydrate
Ascorbic acid	Iron powder FeSi 15
Barium sulfate	Lactose monohydrate
Bathophenanthroline	Lanthanum oxide
Bentonite	L-Glutamic acid
Bismuth(III) carbonate basic	L-Histidine
Bismuth(III) gallate basic	Lukosan M 14
Bismuth(III) oxide	Magnesium acetate tetrahydrate
Boric acid	Magnesium carbonate basic
Bromophenol Blue	Magnesium chloride hexahydrate
Bromothymol Blue	Magnesium oxide
Calcium hydrogen phosphate dihydrate	Magnesium sulfate anhydrous, dried
Calcium lactate pentahydrate	Magnesium sulfate heptahydrate
Calcium sulfate precipitated dihydrate	Methyl Blue
Carboxymethylcellulose sodium salt	Methyl Red
Cellulose microcrystalline	Methyl Red Sodium Salt
Cerous chloride heptahydrate	Molecular riddles
Cesium chloride	Murexide
Coal filter material FU-1	N-Phenylanthranilia acid
Cuprizone	Paraffin fluid
Cuprone	Potassium acetate
D-Aspartic acid	Potassium aluminum sulfate dodecahydrate
D-Fructose	Potassium dihydrogen phosphate
Dimethylsiloxanum (Dimeticonum, Silicone oil)	Potassium hydrogen carbonate
Diphenylcarbazone	Potassium hydrogen phthalate
di-Potassium hydrogen phosphate	Potassium hydrogen tartrate
di-Sodium hydrogen citrate monohydrate	Potassium chloride
di-Sodium hydrogen phosphate dodecahydrate	

lach:ner

Potassium iodide
Potassium sodium tartrate tetrahydrate
Potassium sulfate
Propane- 1,2-diol
Pyruvic acid sodium salt
Saccharose
Silica gel
Silicon dioxide
Sodium acetate anhydrous, trihydrate
Sodium benzoate
Sodium bromide
Sodium dihydrogen phosphate dihydrate
Sodium hexametaphosphate
Sodium hydrogen carbonate
Sodium hydrogen tartrate monohydrate
Sodium hypophosphite monohydrate
Sodium chloride
Sodium iodide
Sodium sulfate anhydrous, decahydrate
Sodium tetraborate decahydrate
Sodium thiosulfate anhydrous pentahydrate
Sorbic acid Potassium salt

Sulfanilamide
Starch soluble (from potatoes)
Strontium chloride hexahydrate
Talc
Tannin
Tin(IV) oxide
Titanium(IV) oxide
Toluidine blue
Tributyrin
tri-Lithium citrate tetrahydrate
tri-Potassium citrate monohydrate
tri-Sodium citrate dihydrate
TWEEN 20, 40, 60, 80
Urea
Water HPLC
Zinc carbonate basic
Buffer solution pH 4
Buffer solution pH 7
Buffer solution pH 9
Lafarex
Indicator and reagent paper strips
